

Week 1

- To know that double means 'twice as many'.
- To say the doubles as they are built.
- To explore early symmetry – dominoes.

Week 2

- To understand that sharing equally is 'fair'.
- To recognise and share equal groups.
- To find half.

Week 3

- To understand that some quantities will share into equal groups and some will not.
- To notice the odd and even structure using number shapes (Numicon)

EYFS Number/Numerical Patterns

Medium Term Planning

Find my pattern/On the Move

Summer 2

Consolidate – subitising, counting on and back within 10, composition, sorting and matching, comparing and ordering.

Week 4

- To add one more to odd/even numbers.
- To use tens frames to display odd and even numbers.

Week 5

- To understand that places and models can be replicated.
- Money – adding amounts and recognising coins
- To use positional language to describe the location of a place.

Week 6

Consolidation
